

Get the most out of your IRcamera!

Equine Thermography Course “Practical Training”

April 17th - 18th 2018 / The Netherlands

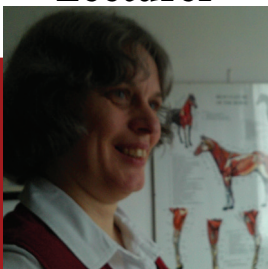

Lesson objectives

- Understand heat transfer
- Capture images following the AAT protocol
- How to prevent artefacts during your exam
- Recognize artefacts in your image
- How to check the horse to prevent artefacts
- Practical training with horses
- And much more.....

An artefact will harm your interpretation!

Finally you can write your report with reliable images to interpret

Lecturer

Irma Wensink
